

CLOUDSIGHT SECURITY AND BEYOND

Top Use Cases

The industry's first camera-to-cloud solution with real-time AI analytics for surveillance and business intelligence.

RETAIL

- Employee leaves boxes blocking emergency exits during inspections.
- Manager receives real-time alerts for blocked exits.
- CloudSight alerts enable this retailer to avoid fines and improve compliance with fire and safety regulations.

BANKING

- ATM security breach reported.
- Eyewitnesses describe suspect in white shirt and blue pants.
- Branch manager used CloudSight's Attribute Search in surveillance to identify suspect.
- Suspect successfully apprehended, ensuring banking security.

EDUCATION

- Students skipping class via side door.
- CloudSight's tripwire alerts administrators when students pass through an exit during class times.
- Administrators monitor system to identify repeat offenders.

TRANSPORTATION

- Delivery service keeps receiving complaints about late and damaged shipments.
- Management uses CloudSight with Searchlight Cloud for delivery trend analysis and CloudSight's Attribute Search to evaluate if delays are driver-specific.

RESTAURANTS

- Manager noticed cars exiting drive-thru line prematurely.
- Implemented Cloudsight with Searchlight Cloud to analyze wait times and customer loss.
- CloudSight data improved drive-thru efficiency and customer satisfaction.
